Report of the Comptroller.

TREASURY DEPARTMENT, STATE OF FLORIDA, }
COMPTROLLER'S OFFICE, }
TALLAHASSEE, January 1st, 1900. }

HON. WILLIAM D. BLOXHAM,

Governor of the State of Florida:

SIR—In pursuance of the requirements of law I have the honor to submit herewith a report of the official acts and proceedings of this office for the fiscal year ending December 31st, 1899.

PAYMENT OF STATE DEBT AND REDUCTION OF TAXES.

Owing to the increased expenditures on the part of the State, necessitated by the provisions of the Constitution of 1885, which went into effect January 1st, 1887, and the fact that no provision had been made therefor in the tax levies, the cash in the State Treasury, applicable to current expenses, was so depleted that it became necessary to borrow money to meet the actual demands on the Treasury, and for that purpose the Legislature of 1889 passed an act, Chapter 3875 of the Laws of Florida, authorizing the Governor, Treasurer and Comptroller to negotiate and secure a loan. Acting under this authority of the Legislature a loan of one hundred thousand dollars was secured.

The Legislature of 1891 passed an act, Chapter 4018 of the Laws of Florida, approved April 24th, 1891, authorizing the Governor, Treasurer and Comptroller to borrow two hundred thousand dollars so as to pay the one hundred thousand dollars already borrowed and secure an additional one hundred thousand dollars to meet accumulating claims. The total amount authorized by the act of 1891 was borrowed, and notes issued therefor as follows:

July 17th, 1891, 3 notes of \$50,000.00 each	\$150,000.00
November 2d, 1891, 1 note	25,000.00
November 3d, 1891, 1 note	25,000.00
	<hr/>
	\$200,000.00

The notes previously issued for one hundred thousand dollars were paid and the remaining one hundred thousand dollars placed in the State Treasury to the credit of General Revenue to meet appropriations made by the Legislature. This accounts for the existence of the notes amounting to \$200,000.00 which were still outstanding October 1st, 1898. Since that date notes have been paid as follows:

October 12th, 1898, 1 note.....	\$ 25,000.00
December 17th, 1898, 1 note.....	50,000.00
February 16th, 1899, 1 note.....	25,000.00

Aggregating.....\$100,000.00

This leaves \$100,000.00 in notes unpaid at this date, but provision has been made, without a special tax levy, to pay the same from the taxes ordinarily levied to meet the expenses of the State, and the remaining two notes of \$50,000.00 each will be paid on the seventeenth inst. In addition to this the tax rate for the year 1900, to meet the current expenses of the State and to pay the interest on the Bonded Debt, can be reduced to two and one-half mills on the dollar, and there is every reason to believe that the same low rate can be levied for the year 1901. The payment of the loan of \$200,000.00, which will be completed this month, will result in an annual saving of ten thousand dollars, which was the interest thereon, and this has been gradually brought about without increasing the rate of taxation, for any given year, to such an extent as to prove a burden on the tax-payers, as the average tax rate for General Revenue for each of the past four years was three mills. This has been accomplished by an economical administration of the affairs of the State and an adherence to the only true economic governmental doctrine that taxation should be limited to the actual necessities of the government without creating a useless surplus. This is a true recognition of the rights of the tax-payer, and so long as that course is pursued the best interest of the State will be subserved.

BONDED DEBT.

The statement of the bonded debt, which appears elsewhere in this report, shows that there are only \$322,500.00 of the Bonds of 1871 and 1873 in the hands of individuals, as follows:

Bonds of 1871.....	\$ 61,900 00
Bonds of 1873.....	260,600 00
	<hr/>
	\$ 322,500 00

The Bonds of 1871, which become due and payable January 1st, 1901, will all be absorbed by the Educational Funds of the State, and will be so held subject to such action as the Legislature may deem best.

STATE BANKS.

The increase in the deposits in State Banks during the past two years is so gratifying as to be deemed worthy of special mention. There are twenty-one State banks, as shown by the statement in the appendix, with an aggregate paid up capital of seven hundred and ten thousand dollars. The first bank was organized August 20th, 1889, and over half of these banks have been in existence for less than seven years.

The aggregate deposits in said banks at the close of business on the last day of each of the past three years, were as follows:

1897, December 31st.....	\$1,865,838.98
1898, December 31st.....	2,160,632.64
1899, December 30th.....	2,801,345.82

This increase in two years is an evidence of the material prosperity of the people and of the recognition, on their part, of the stability of State Banks. Increased business means added responsibility, and there should be a corresponding increase in the care and attention of the officers and directors of the banks so that the wise and conservative methods, heretofore so generally adopted, may be continued.

Two new State Banks were recently organized, and statements therefrom will appear in the next report.

The usual tabulated statements are hereto appended, and special attention is invited thereto.

Yours very respectfully,
W. H. REYNOLDS,
Comptroller.

RECEIPTS AND DISBURSEMENTS

At the State Treasury for the year ending December 31st, 1899.
